

Ohjeet Google Tag Manager -tunnusten antamiseen

1. Kirjaudu sisään Google Analytics-tilillesi osoitteessa <https://tagmanager.google.com>
2. Valitse listalta oikea tili (account) sekä säilö (container).
3. Valitse yläpalkista ADMIN ja vasemmasta ACCOUNT kolumnista User Management.

4. Klikkaa NEW

5. Määritä alla olevassa kuvassa näkyvät oikeudet ja klikkaa ADD.
 - a. Email: oikio@oikio.fi
 - b. Account Permissions: Admin
 - c. Container permissions: Publish

The screenshot shows the Google Tag Manager Admin interface. At the top, there is a navigation bar with 'ACCOUNTS', 'WORKSPACE', 'VERSIONS', and 'ADMIN'. Below this, the breadcrumb trail reads 'Administration > Account User Management > Add New User'. The main content area is titled 'Add New User' and contains the following fields:

- Email:** A text input field containing 'oikio@oikio.fi'.
- Account Permissions:** A dropdown menu with 'Admin' selected.
- Container Permissions:** A table with two columns: 'Name' and 'Container Permissions'. The 'Container Permissions' column has a dropdown menu with 'Publish' selected.
- Buttons:** A blue 'ADD' button and a grey 'CANCEL' button.

Four orange arrows point to the email field, the Account Permissions dropdown, the Container Permissions dropdown, and the ADD button.
